

Kids Tennis Programs

This program is specifically designed for kids ages 5-8 years old. We start kids out playing on smaller courts, using age and size-appropriate racquets, as well as foam and lower-compression **red** balls. While the equipment used is made just for 'little people', our goal remains the same: get kids excited about playing tennis while teaching good tactics and techniques which eventually have them mastering their game on full-size courts. Enrollment is on a monthly basis and fees must be paid on the first day of the month. There is a one-time \$25 registration fee. The program runs through Friday, May 25, 2012.
